NC AND LEAD

MARION COUNTY, ARK. THE RICHEST FIELD AND LARGEST ORE BODIES ON EARTH.

This district is soon to have railroad transportation, as there are now two railroads under construction and will reach the mineral fields this year. The preliminary survey of the Missouri Pacific has just been run through Marion County, and the line will soon be located. Twenty miles of this road up White River has been completed and two other 20-mile sections are now being graded. Transportation is a certainty. Large and quick profits can de in buying fee simple title to mines and mining lands, properties that will be large producers. Investigate the immense opportunities and inducements offered capital. The high price of zinc ore and certainty of transportation are convincing of what the future will be.

Large discoveries of both lead and zine (unparalleled in zine and lead mining) have recently been made by drills, on which shafts are being sunk. Send for record. Some good bodies of timbered lands can be procured at

We know the field thoroughly-developed some of the most noted prop-

Local Securities Bought for Cash or on Margin.

Local Money Market. Clearings were again large, and the demand for call and time loans was brisk. Direcount rates were steady between 414 and 514 per cent. Yesterday's Bank Clearings. Yesterday's Clearing-house statement showed clearings 19,642,285, balances \$1,180,465, compared with clearings \$10,638,456, balances \$1,566,969. SPECULATIVE MOVEMENT IS **FULL OF AGGRESSIVENESS.**

APPEARS TO BE UNDER STRONG LEADERSHIP.

Deals on Wall Street Assume Impressive Proportions-Prices Variously Affected.

New York, April 18.-The varied activity of very large speculative forces was still manifest in the stock market to-day. The novement of prices was entirely characteristic of an active speculative movement under a well-centered and aggressive leadership. The deals were on a larger scale than those of yesterday, and progress was also made on the breadth of the movement and the variety of stocks dealt in. The average of the daily dealings for the week has been brought up to impressive proportions, and, in fact, to a level of sustained activity that in fact, to a level of sustained activity that was entirely unprecedented in the local market until last year's new records were established during the period of greatest speculative excitement. There was nothing in the news to-day or in the general conditions and outlook to account for the manner in which new points of strength were constantly developed, while the older points of strength were left to drift downwards or were subjected to a judicious feeding of the demand for the purpose of realizing profits. Those stocks which spurted late in the day yesterday, and those which opened this morning with a vigorous upward movement, almost without exception were subjected to realizing to-day, and closed the day with small net gains below the best prices. This was notably true of Atchison and the anthracite coalers, and was measurably tru of stocks, which showed a period of strength later in the day.

Southern Again in Background

Southern Again in Background

Broadly speaking, the leadership of the advance was shifted to St. Paul and then to Union Pacific with a more moderate response along the other Southwesterns and Pacifics. Southern Bailway and Louisville fell into the background again.

The bituminous coal carriers enjoyed a period of strength and there were a number of wide advances among scattered industrials and specialities. Colorado Fuel was active and strong on speculative supposition that absorption of that company in the United States Steel Corporation had been assured as part of the settlement of the control of Louisville and Nashville. International Power was extremely erratic, but rose an extreme 10%, presumably on the dividend declaration yesterday. There were gains of between 2 and 8 points in North American, Peoples' Gas, the Rubber Goods stock, New York Air Brake, the American Sauff stocks, Fort Worth and Denver City Stamped, and Nashville. Chattanooga and St. Louis. Burlington. Cedar Rapids and Northern dropped 10 points, on a single sale and Brooklyn Union Gas 3.

Copper Shows Depression. Southern Again in Background

Copper Shows Depression.

Amalgamated Copper was quiet, but somewhat depressed after yesterday's dividend reduction. American Sugar was sold on the strength of the proposed amendment to the Cuban reciprocity' bill to rescind the differential duty on refined sugar. The preliminary figures of the cash movement for the week indicating a gain in reserve of over \$1,500,000, and an easier tone in the money market were calculated to sustain the speculative movement. The fact that sterling exchange has ruled easy throughout the week in spite of large American subscriptions to the new British loan,

and some selling of securities here on London account, while the supply of commercial bills of exchange is notably scanty, is striking evidence of the large credit resources of this center in foreign markets. The market closed active and irregular. The activity in stocks has diverted interest from the bond market, which was rather dull and irregular. Total sales, par value, is per cent and the old 4s coupon advanced is per cent on the last call.

WEEKLY BANK STATEMENT.

St. Louis Clearings Are \$57,202,829, an Increase of 23.1 Per Cent.

Reported by the New York Commercial, through ancis, Bro. & Co., No. 214 North Fourth

People's Gas—After a long period of duliness.

People's Gas became ettive and strong on buying for both accounts. There was no news regarding the pending illustion, but Chicago operators were said to be builted on the stock on the theory that earnings justify higher prices. So far as could be ascribed, insiders did little. Both the common and preferred American Locomotive made new high-record prices to-day on scattering commission-house buying, based on company's business. It was said that orders shough to keep the works taxed to their utmost until September, 1903, had been booked, International Power again rose sensationally on the same character of buying noted for some days past.

United States Steel—The buying of United States Steel, common, by London was a feature. The stock also was taken freely by Keene brokers. There was no news to account for the movement, but it was said that all the stock which had been pressing for sale during the past few weeks was now out of the way, and inside interests that have been not committal as to the market course of shares were again outspokenly builtsh. Atchison-London was the first heavy buyer of Atchison, but later there were heavy purchases of preferred by C. M. McQuillish come time past London has been well build the stocke. It was said that the Gates party had bought the London calls in large amounts of common, and that a bull campaign was contemplated.

New High Records—The distribution of business on the stock market was again very good. As a result, there which sold at the highest price in their history, notably American Lecomotive common and preferred. Canadian Pacific, Colorado Southern, Port Worth and Denver City.

TRUST COMPANY STOCKS THE FEATURE.

OF LOCAL SECURITIES.

Tractions Barely Steady and Bank Issues Neglected by Investors.

Desultory trading, with rather scattered inquiries, characterized both sessions of the St. Louis Stock Exchange yesterday.

Am.

Am.

Am. shares excited little interest. The bulk of the trading was in trust company shares and a few of the more active miscellaneous certificates.

Am. Linseed Oil. Do. pfd. Am. Smelt. & Ref. 10. pfd. Am. Smelt. & Ref. Am. Smelt. & Ref. Am. Smelt. & Ref. Am. Smelt. & Ref. Am. Smelt. & Sm

A feature of the morning session was the rapid depreciation of Missouri. Trust. Despite a raily toward the end of the meeting, only a portion of the early losses was wiped out. Under apparently heavy selling pressure the price eased off \$5 a share to \$12.2 Late buying orders advanced the market to \$124.35 below Thursday's close.

Mercantile Trust issues were in good demand, but firmly head. A lot of the new sold at \$420. Colonial was steady at \$22.25 and \$227.25 and \$227.25 and \$227.25 amount of the easy at \$129 and \$125. In the bank group Mechanics' National was conspicuously weak at \$2.70.

News of a merger with other similar concerns caused a good demand for Chicago Railway Equipment at \$7.50 and \$7.45. Transit was easy at \$20.825, and other local traction issues were not eagerly sought. A feature of the morning session was the Transit was easy at \$30.624, and other local traction issues were not eagerly sought. At the afternoon session trust company issues were generally weak. Missouri cosed at \$122, the low point for the day, and an odd lot was let go at \$121.75. American Central Trust opened easy at \$178 and declined to \$17.50. Title Guaranty, at \$135.50, and \$1. Louis Union Trust, at \$365.50 and \$388, were easy picking for the bears.

Transit sold unchanged at \$30.8215, and there was no trading in United Railways preferred or the 4 per cent bonds.

DOUBTFUL WEATHER MAKES SEESAW GRAIN MARKE

CROWD TURNS BEARISH THE END.

Much Bullish News for Wheat, by Not Sufficiently Strong to Cause a Jump.

Chicago, April 13.-Grain speculation wa Traders realized that rain must come soon to the relief of the winter crop, and local Every breath of rumor suggesting moisture affected prices. In the end the crowd turned bearish, and May wheat closed %@ %c lower, May corn %c down, and May oats to lower. Provisions closed 24c to 124c

There was not such a volume of business in the wheat pit as for several days past

The crowd was in a guessing frame of mind and feared possible rain news might cause a break at any moment. There was any quantity of builish news, but under the prevailing sentiment much was lost sight of. The trade seemed to see anything but rain possibilities. The condition, as one expert put it, is one of dryness from Pennsylvania possibilities. The condition, as one expert put it, is one of dryness from Pennsylvania to Texas and north to the North Dakota ine. The trade understands well what happen if rains do not fall. The extreme the dryness centers in Kansas. No alsave an occasional shower has fallen is twenty-four hours, and the forecast was factear, dry weather in general. Kansas Cipreported high winds and bugs injuring Kansas wheat. One statistician put up a claim of 5 to 10 points injury in Kansas since April 1. Argentine advices stated that the outlook was buillish—the Government helping the Provinces buy seed wheat. At the opening there was a shortlived spurt, May prices starting \$\frac{1}{2}\$ to \$\frac{1}{2}\$ c up at \$7\frac{1}{2}\$ c. Cables were only steady, and under the influences of the pit prices were somewhat errate in their fluctuations. There were frequent glips and as frequent railles, though the latter were weaker each time. Gradinally the bears prevailed. There was a rumor of rainfalls West, and profit-taking and some short selling pressed until May closed weak, \$6\frac{1}{2}\$ c lower at \$7\frac{1}{2}\frac{1}{2

Corn.

Trade in corn was inclined toward the waiting attitude. Business was moderately active at times, but the uncertainty of the active at times, but the uncertainty of the course of the wheat market was a bar to marked sympathetic action. There was a disposition to wait for some one to take the lead. Reported improvement in country offerings was a drag on the bulls, and a break at St. Louis early in the session was reflected by a dip here. The weather is not much of a factor in corn, save as it affects wheat, cats, hay, etc. Anything which tends to shorten coarse feed is felt by the corn trade, and reports of hay-crop damage did result in a hurried upturn in corn at the opening. May started 40% ohigher at 60% to 62%, but at once broke. Rallies followed wheat somewhat, but the market showed beartsh tendencies.

Oats contributed strength at times. The late wheat weakness brought May corn to a weak close. So down, at Sc. Receipt were only Scarz. Oats had a fairly sharper only scarz. Oats had a fairly sharper only scarz oats had a fairly sharper of the scarz oats had a fairly sharper of the scarz oats had a fairly sharper oats fluctuated rapidly. The strength is other grains and the fear that the dry weather would be more dangerous to oats than to any other grain pressed prices up at the opening. Receiving and commission houses bought liberally, and the market seemed to take on independent strength. Later, considerable selling pressure came out, and the bullish aspect of the pit underwent a change. Wheat and corn weakness were only moderate factors in the setback. May sold between the and Sc, closing weaker, Sc down, at the latter price. Receipts were 15 cars.

Provisions.

Provisions looked like a manipulated market to-day. Though trade was quiet, prices early were strong on the grain strength. The hog market was only steady, and may have contributed to a growing weakness, but prices were pressed by the local bears. Packers supported but little. May pork closed 12½c lower, at \$16.30; May lard 2½c down, at \$9.75, and May ribs 2½650 lower, at \$9.2069.2224.

Estimated receipts for to-morrow: Wheat, 40 cars; corn, 8c; oats, 145; hogs, 15,00 head.
